SUMMARY

Innovative and results-driven web developer with a strong foundation from 1337 Coding School (42 Network). Proficient in building robust web applications and user-centric interfaces, leveraging modern technologies to deliver scalable solutions.

SKILLS

PROFESSIONAL

- **Web Development:** ReactJS, NextJS, NestJS, PostgreSQL, HTML, CSS
- **Programming Languages:** JavaScript, TypeScript, C, C++, Python
- **Tools & Frameworks:** Git, Docker, TailwindCSS, ThreeJS, React Three Fiber
- **Other Skills:** Unix Shell, Socket Programming,

EDUCATION

- **1337 (42 NETWORK)**
Software Engineering
2021 - Present
- **HASSAN II UNIVERSITY CASABLANCA**
Mathematics and Computer Science
2020 - 2021
- **IBN KHALDOUN HIGH SCHOOL**
Baccalaureate In Mathematics (A)
2019-2020

PROJECTS & WORK EXPERIENCE

● RedactAI (6 MONTH INTERNSHIP AS A FULL STACK DEVELOPER)

France | Remote

- Coding and integrating features for the new UI, optimizing AI tools, and improving onboarding workflows.
- Implemented user tracking, refactored legacy code for better performance, and worked on debugging and workflow improvements.

● FT_IRC

- Built a reliable IRC server in C++, incorporating core functionalities like authentication, message routing, and channel management.
- **Technologies:** C++, Socket Programming

● FT_TRANSCENDENCE

- Developed a full-stack web app revitalizing the classic Pong game with enhanced 3D environments and modern gameplay mechanics.
- Features include user profiles, real-time chat, and multiplayer support.
- **Technologies:** NextJS, NestJS, Socket.io, React Three Fiber, TailwindCSS
